# INDEX

## TO VOLUME THE FOURTH.

A

PAGE.

Abdominal tumour, case of..... 156
——— post mortem examination of..... 157
Acromion, fracture of, described 199
——— process of its reduction ..... ib.
Ancle joint, dislocations of.. 328, 330
——— compound 385
——— treatment of..... ib.
Animalculæ, spermatic, paper on 17

B

Belladonna, its utility as a preventive of Scarlatina .....51, 230
Bell, Mr. Charles, election to the professorship of anatomy .... 190
Bone, suppuration in, nature of 417
——— treatment of ib.
—— abscesses in the shell of .. 418
—— exfoliation of, described .. 419
——— internal ditto ib.
——— treatment of ib.
Brain, cancer of, treated by foreign practitioners ..... 48
Bronchocele, case of, successfully treated by Mr. Litchfield .... 185
Bubo, is the matter of it infectious? ..... 37
Burns and Scalds, their nature and effect ..... 422
——— treatment of 424

C

Cancer of the brain, case of .... 48
——— remarks on this case .... 49
——— of the cerebellum, case of ib.
——— post mortem examination of..... 50
Carpus, dislocation of the bones of ..... 225
——— mode of its reduction.... ib.

PAGE.

Carlisle, Sir Anthony, on purgatives ..... 381
Caution, curious one in Ireland 382
Chemistry, papers on.... 46, 75, 107, 141, 209, 433.
Clinical Lectures at St. Thomas's, 56, 84, 112, 145, 173, 245, 279, 311, 340, 377, 405.
Collyer, Dr., and The Lancet, state of the prosecution ..... 257
Cold, on the employment of it externally ..... 400
Cooper's, Sir Astley, Surgical Lectures at St. Thomas's and Guy's, 33, 65, 97, 129, 161, 193, 225, 289, 321, 353, 385, 417.
———, observations on the improper practices at St. Thomas's..... 140
Cotugnius, biographical sketch of 155
Cyst in the brain, case of ..... 397

D

Digitaline, analysis of..... 210
Disease, curious one in Poland.. 182
——— in Paris, scale of, and remarks on..... 365
Dislocations, general remarks on 161
———, their nature and character ..... 162
———, mode of their reduction considered..... 165
———, treatment of, at full 166
——— of the spine described 167
——— of the dorsal vertebræ 168
——— treatment of ..... 169
———, general considerations of those affecting the spinal marrow ..... 170
——— post mortem examination of..... ib.
——— of the ribs, their rarity ..... 193

# INDEX.

PAGE.

Dislocations of the clavicle, minutely described ..... 193
——— mode of reduction .. 194
——— of the humerus described ..... ib.
——— mode of its reduction 196
——— second of, described 197
——— means used to effect reduction ..... 198
——— third and fourth of, described ..... ib.
——— of the elbow..... 200
——— both bones backwards ..... ib.
——— mode to reduce same ib.
——— laterally.. 201
——— to reduce same .... ib.
——— backwards ib.
——— mode of its reduction ib.
——— of the radius, forwards 202
——— backwards ib.
——— to reduce same .... ib.
——— of the wrist, varieties of..... 202
———, of both bones ..... ib.
———, backwards ib.
——— mode of their reduction ..... 203
——— of the bones of the carpus..... 225
———simple.... ib.
———compound ib.
——— mode of reducing ib.
——— of the metacarpal bones ..... 225
——— mode to reduce same ib.
——— of the fingers and toes 226
——— treatment of..... ib.
——— of the thumb ..... ib.
——— mode of its reduction 227
——— of the metacarpal bone from the os trapezium .. ib.
——— of the first phalanx.. 228
——— compound of the same ib.
——— treatment of..... 229
——— of the second phalanx ib.
——— of the lower jaw .... ib.
——— different modes of its reduction ..... 230
——— of the hip joint, their varieties..... 231
——— upwards, or upon the dorsum of the ilium ..... 232
——— treatment of..... 233
——— downwards or into the foramen ovale .... 235
——— mode of reduction .. ib.

PAGE.

Dislocations of the thigh bone .. 289
——— backwards, or into the ischiatic notch .... 290
——— difficulties attending reduction ..... ib.
——— mode of performing same ..... 291
——— of the pubes, their nature, &c. ..... ib.
——— mode of reduction .. 292
——— of the patella, outwards and inwards ..... 324
——— upwards .... ib.
——— transversely.. 326
——— longitudinally 327
——— compound, and treatment of ..... 328
——— of the tibia, at the knee-joint ..... 325
———, partial, of the thigh, from the semilunar cartilages.. ib.
———, compound, of the knee-joint ..... 326
——— of the condyles of the femur ..... 328
——— of the ancle-joint, inwards ..... ib.
——— forwards 329
——— outwards 330
——— compound ib.
——— general treatment of 331

E

Ear, defect of organization of the external case of .....
—— Dispensary, annual report of 95
Elbow, dislocations of, described 200
——— both bones backwards..... ib.
——— reduction of..... ib.
——— laterally.... 201
——— outwards .. ib.
——— backwards.. ib.
——— compound .. 386
——— treatment of 387
Exostosis of the bone, its nature, &c. ..... 419
——— operation for..... 420

F

Femur, condyles of, dislocations of ..... 328, 330
Fibrous tumours, extirpation of, paper on..... 304
Fingers, dislocations of ..... 226
——— treatment of ib.

PAGE.

Fœtus, extraordinary one presented to the Royal Academy at Paris ..... 156
Foreign Department.—Reports of Physiological and Pathological cases, treated by foreign practitioners .. 1, 48, 123, 155, 213, 237, 270, 303, 331, 365, 396, 435.
Fractures, their nature and character described ..... 199
——— of the shoulder-joint .. ib.
———, their close resemblance to dislocations ..... ib.
——— of the acromion ..... 199
——— method to reduce .... ib.
——— through the neck of the scapula, its similarity to dislocations of the axilla..... ib.
——— process of its reduction 200
——— through the neck of the humerus..... ib.
——— of the upper part of the thigh bone ..... 293
——— within the ligament .. ib.
——— cause and nature of .. 295
——— the varieties, &c. .... 297
——— of the neck of the thigh bone ... ..... 321
——— through the trochanter major ..... 323
——— treatment of..... ib.
———, compound, their nature, character, and influence described ..... 353
———, cause of their non-union 354
——— treatment of, under common circumstances ..... 355
———, constitutional treatment of..... 357
———, difficulties arising in the treatment of ..... ib.
——— with hæmorrhage from the large arteries..... 358
——— general remarks on 359
———, compound, of the ancle joint..... 385
——— treatment of..... ib.
———, compound, of the elbow joint ..... 386
——— amputation for ..... ib.
——— of the knee joint ..... ib.
——— amputation for ..... ib.
———, compound, of the elbow, extending to the wrist joint, and treatment of ..... 388
———, the difficulties which arise from inflammation, spasmodic action of the muscles, &c. 389
——— amputation for ..... 390

PAGE.

Fractures, compound, proper time for amputation for ..... 391
———, general remarks on .. ib.

G

Gill, Mr., letter on the stomach syringe ..... 52
Gonorrhœa and syphilis, are they the same disease?..... 37
Gout, paper on, by M. Bayle.... 240
Guy's Hospital, reports from.. 24, 53, 81, 109, 142, 170, 221, 249, 309, 339, 373, 402, 439.

H

Hæmorrhage into the urinary bladder, case of, by Mr. Copland Hutchison, with remarks on ..... 187, 265
Hewson's work on Ophthalmia, review of ..... 359
Heart, rupture of, case of, by M. Bayle ..... 370
Hip joint, diseases of described 129
——— treatment of ..... 131
———, dislocations of, their varieties, &c..... 221
———, different modes of treatment of described ..... 233
Hole and Corner practice at St. Thomas's, exposure of..... 77
Hospitals, reports from, see Guy's, &c.
Humerus, dislocation ..... 195
——— mode of its reduction ..... 196
——— second, third, and fourth ditto, remarks on ..... 198
Hydrocyanic acid, analysis of .. 237
Hydrophobia, injection of warm water into the veins, trial of .. 10
———, remarks on, by Magendie..... 16
———, trial of, at Guy's.. 373
———, remarks on .. 160, 191, 431.
Hypertrophy of the heart, observations on ..... 303

I

Impotence, natural and local, described ..... 421
——— treatment of..... 424
Insects, extraordinary case of a female who discharges them from the stomach ..... 395
Islington Dispensary, annual report of ..... 63

J

PAGE.

Jacksonian prize for 1825 ..... 190
Jaw, successful operation of the removal of a portion of, in Ireland ..... 127
——, dislocations of the lower .. 229
——— treatment of.. 230
Johnson, Dr. James, imbecility of 95

K

Knee joint, compound dislocations ..... 326, 386
———, of the tibia at the .. 325
———, amputation for .... 386

L

Lectures, Surgical, at St. Thomas's ..... 33
Letters to the Editor, on the impropriety of detaining a patient in the operating theatre longer than is requisite ..... 91
——on the neglect by Hospital Surgeons of their pupils ..... 158, 184, 306.
—— on the propriety of appointment of Clinical Clerks at each Hospital ..... 216
—— on the utility of Stevenson's new mode of treating cataract of the eye ..... 243
—— proposing a society of medical students ..... 333
Lime, oxalate of, decomposition of by potass ..... 209
Lithotomy, operation of, remarks on ..... 332
Lizars' anatomical plates, notice of ..... 236
Lloyd, Mr., letter on his appointment ..... 275
Lumbar abscesses, their nature, &c. ..... 134
——— treatment of .. 135

M

Medical promotions, deaths, &c. ..30, 63, 96, 128, 160, 192, 224, 286.
Menstrual blood, experiments on 51
Mercury, on its influence upon the system in syphilitic affections 40
———, is any other remedy capable of curing syphilis?..... 43
———, its action on the bones 272
Metacarpal bones, dislocations of described ..... 225
——— treatment of..... ib.

PAGE.

Middlesex Hospital, reports from, 28, 61, 120, 152, 181, 250, 284, 347, 408, 441.
Molliter ossium described ..... 420
Mouth, mercurial irritation of, paper on..... 239

N

Nerves, on the influence of the fifth pair on nutrition and functions of the eye..... 6
——, on the inflammation of, by M. Martinet ..... 213
Nervous system, physiology and pathology of ..... 22

O

Œsophagus, obliteration of, in a new born infant, case of ..... 399
Olfactory nerve, experiments to show whether it be the organ of smell ..... 2
Ophthalmia accompanying lues venerea, review of Hewson's work on ..... 359
Opium, second letter from Mr. Battley on its components .... 337

P

Parenchyma of the lungs, case of perforation of ..... 270
Patella, dislocations of ....324—326
Physiology, valuable paper on, by Magendie .....
Physicians' Society, humbug of, exposed ..... 190, 217, 220
Phrenology, Elements of, by Geo. Combe, notice of ..... 203, 298
Phthisis pulmonalis, curious case of..... 291
Plague, contagion of, valuable remarks on ..... 402
Plica polonica, effects of, in Poland..... 182
Poison and stomach pump, value of..... 318
Premature labour, observations on 427
——— Dr. Beatty's remarks on recent cases of..... 429
Prostate gland, fungoid tumour of, producing hæmorrhage into the urinary bladder, case of .. 186
Psoas abscesses, their nature and influence..... 134
——— treatment of.... 135
Pubes, dislocation of ..... 291
——— treatment of .. 292
Purulent ophthalmia, remarks on..... 224, 274

R

PAGE.

Rachites, its nature and character ..... 127
——— treatment of..... ib.
Radius, dislocation of, described 202
——— forwards and backwards..... ib.
——— mode of its reduction .. ib.
Review, Combe's Elements of Phrenology.....203, 298
———, Hewson's Ophthalmia, arising from lues venerea .... 359
———, Hutchison's case of haemorrhage into the urinary bladder ..... 187, 265
———, Sutleffe's Medical cases 391
Rhinoplastic operation, successful case of, at Montpellier ..... 123

S

Scrofula, general description of its nature and effects ..... 65
———, influence of climate and season upon ..... 67
———, is it hereditary? ..... 69
———, medical treatment of.. 70
———, important advice to parents on ..... 71
———, remedies for ..... 74
———, affections of the glands of the neck..... 97
———, reason why the absorbent glands are most frequently affected ..... 99
———, treatment of enlarged absorbent glands ..... 100
———, mode of puncturing abscesses of ..... ib.
———, affections of the mesenteric glands ..... 102
——— treatment of..... ib.
———, dropsy arising from .. 103
———, diseases of the joints produced by ..... ib.
——— treatment of..... 105
———, when amputation is necessary ..... 106
———, diseases of the hip arising from scrofulous affections ..... 129
——— treatment of..... 131
———, vertebral diseases, account of ..... 132
———, treatment of ..... 133
———, psoas and lumbar abscesses of ..... 134
——— their similarity to femoral hernia ..... 135
——— treatment of..... ib.
Spermatic animalculæ, paper on 17
Spinal marrow cancer, and softening of, case of ..... 22
——— post mortem examination of ..... 23
———, general remarks on dislocations affecting ..... 169
——— treatment of..... 170
——— post mortem examination of a subject of ..... ib.
Spine, dislocations of ..... 167
St. Thomas's Hospital, reports from... 26, 60, 88, 119, 151, 181, 223, 245, 310, 340, 379, 404, 440.
——— Clinical Lectures at .... 56, 84, 112, 145, 173, 245, 279, 311, 340, 377, 405.
St. George's Hospital, reports from .... 63, 122, 154, 254, 286, 317, 412.
St. Bartholomew's Hospital, reports from ..... 90
Syphilis, general remarks on.... 33
———, its symptoms and character ..... ib.
———, secondary symptoms of 34
——— time of their appearance..... ib.
———, effects upon children in utero ..... ib.
———, degree of inflammation attending attacks of..... 35
———, constitutional affections arising from ..... 36
———, whether the matter of secondary venereal ulcer is infectious?..... ib.
———, is the matter of bubo infectious?..... 37
——— and gonorrhœa the same disease..... ib.
———, are those parts of the body which are liable to it subject to other diseases similar in appearance..... 38
———, general treatment of.. 40
———, is chancre curable without the use of mercury?..... ib.
———, remarks on the influence of mercury upon the body in complaints of ..... ib.
———, is any other medicine but mercury capable of curing it? ..... 43

T

Taliacotian operation for a new nose ..... 21, 123, 159

PAGE.

Tape worm in the bladder, case of ..... 331
Thigh bones, dislocation of ... 289
——— backwards, or into the ischiatic notch .... 290
——— difficulty attending its reduction ..... ib.
——— mode of reducing.. 291
—— bone, fracture of the neck of ..... 321
——, partial dislocations of .... 325
Thumb, dislocations of ..... 226
——— mode of reducing ..... ib.
Toes, dislocations of ..... ib.
—— treatment of ..... ib.
Tibia, dislocations of ..... 325
—— treatment of ..... ib.
Trochanter major, fractures of .. 323
——— treatment of.... ib.

U, V

Urinary bladder, haemorrhage into, produced by fungoid tumour of the prostate gland .. 186

PAGE.

Uterus, tumour in the cavity of, during pregnancy, case of .... 425
——— complete extirpation of, successfully performed ..... 435
Vertebral diseases, their nature and character ..... 132
——— treatment of..... 134

W

Westminster Hospital, reports from... 62, 90, 154, 315, 350, 379, 411, 445.
Wormwood root, efficacy of, in epileptic cases ..... 398
Wrist, dislocations of ..... 202
——— of both bones ib.
——— backwards .. ib.
——— process of reduction .. 203
——— compound fracture of.. 388
——— treatment of..... 390
——— amputation of the .... ib.
——— the proper time to perform same ..... 391
